"Through our products and services, we aim to impact the small holder farmers, thus, we can create a true change in the agriculture sector in Tanzania and Africa in General"

# Wholesale & Retail of Agriculture Inputs.

We have based on supply of agriculture inputs from our trusted parteners such as YARA, BASE and SEEDCO, with high standards for the everyday farmer.

#### OUD EEDTI ISEDS

A list of fertiliser that we have set forward for our customers.

### YARA BELA.

Variables SULFAN (an improved alternative to SA) It has a balanced nitrogen source: nitrate N (IZ NOS) and ammonium-N (IZ NN4). A proportion of the nitrogen is in nitrate form and gives superior results in the crops when compared to pure ammonia or urea based products. The products are easy to handle and can be applied to a wide range of crops. Formula: 24 N - 15 Crombia; 24 N - 15 Crombia; 25 Crombia; 25 Crombia; 26 Crombia; 26 Crombia; 26 Crombia; 27 Crombia; 27 Crombia; 28 N - 15 Crombia; 28 N -

**ΥΔΡΔΙΙ**Ι**Λ**Δ YaraLiva NITRABOR - Calcium nitrate (High nitrate nitrogen and soluble calcium for your fruit crops and vegetables). Varal iva™ NITRABOR™ provides fast acting nitrate-N alongside strength building calcium and boron.

Immediately available nitrate nitrogen is

quickly taken up by the plants and

#### VADA VEDA AMIDAS

YaraVera AMIDAS (The New Improved Urea with Sulphur)

VaraVera AMIDAS is a unique granular fertilizer that is 100% soluble and very efficient. It contains nitrogen and sulphate sulphur that is totally available to the crops in an ideal N.S ratio of 7.1 The nitrogen is mostly available in the urea form. This makes it ideal for plant

#### YARA MILA.

YaraMila CEREAL (The best NPK fertilizer for your cereals). YaraMila WINNER (Your quality NPK fertilizer for fruits and

production.

YaraMila JAVA ( Your quality NPK fertilizer for Coffee and Tea).

#### .....

CONTAINS

YaraVita Bortrac 150 is a concentrated liquid boron formulation manufactured to exacting quality control standards to guarantee consistent analysis, crop safety and product performance. YaraVita Bortrac 150 has low viscosity to improve handling, mixing and spraying.

YaraVita Zintrac 700 is a highly concentrated flowable zinc formulation containing 8-10 times more zinc than a typical liquid chelate and 3-4 times that of sulphate or nitrate based liquids.

YaraVita Tracel BZ is a powder NPK, also containing significant levels of Mg, B and Zn. The mix of nutrients make it ideal for application to a wide range of crops.
